Thanks to McClelland College to provide our students with a truly wonderful study trip during the Chinese Spring Festival time of year 2014. All students had an unforgettable and fantastic journey. McClelland College is located near the beach and with many kinds of native Australian animals and trees living around. During the time in McClelland College, our students made pals with local students and got great support from their lovely pals in the aspects of both academic and non-academic life. Teachers of McClelland College were very patient, practical and professional towards our students that whenever our students got any questions, they could seek answers from their teachers. Our students gained not only knowledge but also the interest and thirst for knowledge from the fun and interactive lessons. In most afternoons, McClelland College organized many interesting activities for our students, out of which students gained exercise and happiness. The day trips to downtown opened our students' horizon and helped our students to understand better of local culture. The homestay families that were carefully selected by McClelland College were truly nice and warm and gave our students a peaceful mind and a sense of home.

Thanks to McClelland College again. All students very look forward to having another study trip with McClelland College in the near future.
